ROSE RANCH IS NO MORE

Consolidated With Kahikinui by Raymond.

O MORE will memories of the old days come with the appearance That memorable old property, the hospitable home of Captain James Makee. which for a generation stood for all that was jolly and homelike on Maul. that was jolly and homelike on Maul. has been incorporated into the Kahiki- bic foot; normal, 6.81. nut ranch, and hereafter will be Camp

derstood that the payment was made in bonds of the Dowsett Estate, Limited. Mrs. Raymond being one of the stockholder of fee simple lands on the Island of Maui, this purchase adding 15,000 acres to the 5,000 which are so held out of the 39,000 in the Kahikinui estate.

The ranch will be developed in connection with its parent ranch, the Kahikinui, into the most improved cattle normal, 4.0. I estate in the Islands. Already it has ly from S.W. grazing ranges, new fattening paddocks and abundant water supply for the fields all over the estate. The the fields all over the estate. The water will be piped and reservoirs constructed maximum. 78.8; average minimum. as soon as the work can be got under way. This will be of great help to the Kahikinui ranges, as well as to the old varion, 80.9 and 71.5; Ewa mill. Oahu.

mond properties 750 acres of fine corn 68; average 17.9. The prevailing heat of land, which will be added to in great the northern hemisphere has not afamount when the lantana has been fected these Islands. cleared away. The Kahikinul ranch is No earthquake reported. It is unoffi-now the scene of the most systematic cially reported that Kliauca shows fire into the plant it makes itself felt, and the high average level of the sea for soon after there is a blackening of the the months of June and July has atbranches and the life of the lantana tracted some attention. It is doubtless must then be measured by a few months due to meteorological conditions, per-

The consolidation of the two ranches will make this the largest independent producer of cattle in the entire group. and it is said that from time to time the lines of cattle will be enlarged and extended and the breed improved. This will mean that the number of cattle to be sent into this market will be greatly multiplied. At the present time both of the ranches which are concerned in the consolidation are on a paying basis. Their being brought together and operated under one management will add to the returns from each, while the ex-tension of the water development will mean that there will be ample water for all the stock which may be brought together on the two ranches. In addle WILL RAISE SUGAR tion to the cattle, which is to be made the principal product of the ranch, there will be some horses raised, not only for the use of the ranch, but some for market here. In addition will be interesting experiments with the farming, for the corn crop will be nuch enlarged and the scope of it al- Land and Planting Company, Ltd.,

of the first sugar cane growing estates in the Islands a generation ago, when it was the property of Captain James Makee. It was then known as the Materian Islands and Islands as the Materian Islands Island as a sugar estate and was given over R. W. Blake, W. D. Schmidt, Miss Fran-to the raising of cattle. Then it came ces Washburn, L. F. Turner, W. S. Wise, under the hammer and was sold to trustee, Johnson Nickeus, who jointly James I. Dowsett for \$84,500. Since it or three-quarters of the total stock. has been handled as a cattle proposi-tion and has done well all the time. mark, until it is said that they are of the very best on the Island.

The Rose Ranch was the home of Mrs. E. D. Tenney, Mrs. Colonel manufacture of sugar and molasses and

Spalding, Mrs. Dr. Herbert, Mrs. Dr. to carry on a sugar plantation and gen-Carmichael and Mrs. Noonan, and was eral agricultural business, one of the best-known houses in the group. In old times it was always opened during each year and the entertain ments were always elaborate and well 2,500 shares of \$20 each, and the limit of attended. There is a magnificent house and all the outbuildings which go to make up a great estate. It is possible that there will be a headquarters established at Ulupalakua for the entire system of Raymond properties, on account of the buildings

After the signing of the papers, transferring the property from the estate company to Henry Waterhouse & Co. for Dr. and Mrs. Raymond, Dr. Raymond left for his home to assume control of the ranch property. His mana-ger, Bellina, will have full charge un-

Mr. Fred. Weed of the Williams undertaking establishment stated last wight that there has been a fearful increase in the death rate of infants within the past month or so.

THE WEATHER SUMMARY FOR THE MONTH OF JULY LAST

Temperature mean for the month. 7.8; normal, 77.3; average daily maximum, 83.9; average daily minimum, 72.7; average daily range, 11.2; greatest daily range, 18 degrees; least daily range, 7 degrees; highest temperature. 85 degrees; lowest, 67. Barometer average, 29.969; normal,

29,995 (corrected for gravity by --05); highest, 20,06, on the 19th; lowest, 29,88, on the 24th; greatest 24-hour change, .08. On account of the evenness of ressure, "lows" and "highs" were hardly distinguishable; low pressure may be noted on the 4th and 24th, and high on the 11th and 19th. The baremeter of the name of the Rose ranch. has been below the normal for four

Rancell, 1.53 inches; norma!, 1.86; rain No. 1.

Papers were signed yesteriay transferring these lands and cattle to Henry Waterhouse & Co. for Dr. J. H. Raymond and his wife. The consideration named in the deed is \$52,500. It is unnamed in the deed in th

The artesian well water stands at 33.40 feet above mean sea level at the Punahou well. The average mean sea level holders in that corporation. The trans-fer makes Dr. Raymond the largest an assumed base, 9.60 being hydroan assumed base, 9.60 being hydro-graphic zero (low water) and 10.00 standard mean sea level.

Trade-wind days, 30 (1 of N.N.E.); normal for July, 29; average force, Beaufort scale, 2.7 (16 statute failes per hour). Cloudiness, tenths of sky, 4.4; normal, 4.0. Upper currents of air most-

on it more than 2,500 cattle, and these will be incorporated into the herds of the principal property. There are on the old ranch two fine springs and there will be such development of these Maul, probably 100: Oahu, 100 Kanak.

Articles of accordation of the Kenny ered in time.

The Rose Ranch was developed as one of the first sugar cane growing estates filed yesterday. The new company has a capital of \$50,000 and will engage in the cultivation of sugar cane.

The incorporators are: J. F. Clay.

The principal place of business of the corporation shall be at Olaa, on the Isl-

ervoirs, tramways, wharfs, warehouses, etc., needed for conduct of such busines the capital is placed at \$500,000. officers for the first year are:

L. F. Turner, president, Hilo. J. F. Clay, vice president, Ol. A. G. Curtis, secretary, Olaa. James Scott, treasurer, Olaa. Chas. R. Blake, aud tor, Olaa.

The Keaau Company has purchased two hundred acres of sugar land near the Olaa mill, on the line of the Hilo railroad, in Hawaii, and will plant with cane immediately. The company is under contract to have the cane ground at the Oma mill, and will acquire more land as

or perhaps the condition of the water at this time of the year is accountable. At any rate the number of deaths among the little ones has been appalling the past two months. They are in the meeting here will be for the purform a disease resembling smailpox. As the exact nature of the disease has and his pony. It is the product of centuries of experience and experiment.

Association will meet with the manasise to sail for the Nagahama quarantine station at 3 this morning.

THEY WANT

Washington Wants Health Report of Honolulu.

OMMANDANT MERRY of the Na-And Station has made a request of the Board of Health for a report as to the health of Honothiu, which as desires to forward to Washington, up on the request of the authorities the The Board of Health at its meeting yes terday agreed to forms the faces of sired by the Government, and the world was entrusted to Executive Omcer Pratt. It will bear upon the generahealth of the city, and also contain an facts regarding Honolulu, which may be required by the Naval Department. The purpose of the report was not stated by Captain Merry, but it no doubt will have a bearing upon the transport service through Honolulu, and its future relation regarding this city as a stopping place for all vessels of the Navy.

A report was received that some of the cattle at Honouliuli were supposed to have tuberculosis, and it was order ed that a rigid inspection be made. Dr. C. A. Davis was appointed inspector of cattle for the District of Ewa, and will make an examination of the alleged diseased cattle. He is given full pow er by the Board to destroy all meats deleterious to the public health.

President Wight of the Wilder Steamship Company appeared before the Board and made a statement regarding the carrying of freight for the Board. He had made a tender under the bids advertised for, and his is the only one received so far. It was decided not to open the bids or let contracts before the next meeting, when a full attend ance of the Board is hoped for

A tender was received from D. Ka pawai offering to furnish paial for the leper settlement at \$1.25 for twenty-one pounds each, offering also to pay the steamer freight.

The bid was referred to Mr. Rey noids, who has several bids for the same contract under consideration. The request of Senator Wm. White for permission to visit the settlement

was granted. He wants to close up a rts land deal with one of the tepers, and son as registrar was made permanent.

A rather queer letter was received from Charles Moore, who was recently appointed fish and pol inspector at Hi-to. Moore inquires if he is disqualified from serving because he was told by the sheriff of Hilo that he was about to be arrested for permitting Fujihara. the murderer, to escape, of whom he was jailer. The Board held that be-cause he was a poor jailer could have

no bearing upon his qualification as an inspector of fish and poi, and the sec-

retary was instructed to notify him to

that effect. The effort to secure a physician for South Kohala is still unsuccessful and the Board is In a quandary as to what to do in the matter. A letter was read from Dr. B. D. Bond of North Kohala saying be knew of no physician resident in the southern district and reemmending that the physician at Ko na be given the appointment. He suggests also that if he will not accept to call upon Dr. C. A. Peterson of Honolulu and try to induce him to go there and

locate. A young man went to a wealthy and sented to the board in a request from successful manufacturer and applied Dr. John Weddick, of Maul, for a sanitary inspector at that place. The board recognizes the necessity of such in official, but has no money to pay turer asked, and the young man pro him. Judge McKay, of Maul, who hap ceeded to tell of his ability. "But I don't want to know what you say you can do," the gentleman replied, "let me know what others say you have done; bring me recommendations from people I know and construct."

"But I don't want to know what you suggested that the sheriff be given the appointment if he could be induced to accept. The matter was referred to the socretary with the request that he write to L. M. Unidet.

an trust."

A report was read from Majular
